PROJECTS

Cryptocurrency Trading Signal Generator

Feb 2023 - Present

- Focused on top 5 cryptocurrencies by market cap. Features used include technical and macroeconomic indicators, as well as unstructured data.

Research: Utility of Risk Factors in Forecasting Daily Stock Returns

Feb 2023 - Present

- Exploring the risk factors with the greatest explanatory and/or predictive power in forecasting stock returns using LightGBM.

Technical Indicator Movement Forecaster

Jan 2023 - Present

- 'Quantamental' model using LightGBM to forecast the direction of movement for several technical indicators.
- Accuracy on unseen data averaged 59%; 10-15% better than baseline (random guess). Further optimization is a work in progress. Potential application in mean-reversion models.

EDB Corporate Analytics: Budget Forecaster

Sep 2021 - Mar 2022

- EDB awards grant incentives to companies investing in Singapore. Companies submit claims each year and EDB forecasts a budget for the Ministry of Finance.
- Used clustering and gradient-boosted regressor to predict the monies required for disbursement for the current and next financial years. R^2 averaged >90% across customer segments in later years of the grant period.

IvyPrep Recommender Tool

Sep 2021 - Dec 2021

- IvyPrep is a college admissions consultancy. Built recommender tool to suggest safety and reach schools based on student preferences and credentials.
- Saved an estimated 2-4 hours of desktop research for every new client.

WORK EXPERIENCE

Economic Development Board (EDB)

Manager (Corporate Analytics) / Account Manager (Healthcare Accounts Group)

Sep 2022 – Present

Senior Associate

Aug 2020 – Sep 2022

- Top performance appraisal for every year of assessment.
- 2023 COVID-19 Resilience Medal (Individual): for distinguished service.
- 2022 President's Certificate of Commendation (COVID-19) for distinguished service.
- 2020 MTI COVID-19 Recognition Award (Individual): for meritorious service.

Corporate Analytics

- Product co-Manager for EDB's in-house business analytics and data visualization tool.
- Driving analysis of EDB's investment pipeline to optimize resource allocation.
- Drove risk analysis of incentive recipients to ascertain risk of default.
- Forecasted disbursement budget needs using past claim patterns.

Healthcare Accounts Group

- Driving incentive structuring and negotiations for multimillion-dollar pharmaceutical and medtech investments in Singapore.
- Mediated international negotiations for the purchase and delivery of COVID-19 vaccines.

Associate

Aug 2019 - Aug 2020

Associate Programme

- Negotiated investment projects with companies from China.
- Conducted global economic data analysis to identify hotspots of investment activity.
